

Online Beauty Product Store

App name: GANDA KA PH

The application is an online beauty product store where users can see reviews, post their own reviews, buy products and be a reseller.

1. ACCOUNT

1.1 User Registration

Users will need to register an account in order to buy products or post a review for a specific product. The user must provide their name, username, password, address, birthday, email, display picture (optional) and phone number when registering an account.

1.2 Guests

The user can opt to not register or log in, but this will limit the functions that the user can use within the app. A guest can only browse within the app and view products but they will need to register or log in if they want to add a product to the cart or if they want to review a product.

1.3 Log-in/Log-out

Users will be able to log in to and log out of their account using either username or email. Once they log in they will be able to access their profile and features specific for registered users.

2. APPLICATION FUNCTIONS

2.1 Categories (Main Tab)

- Beauty

- Fitness

- Fashion

- Health

Each category would contain box lists of products available for users to buy. When clicking on a category, the list containing the details (product photo, product name, product price) of the products being sold will be shown.

2.1.1 Viewing Products

When users click on the picture or the name of the product they will be redirected to a new page in the same tab showing the product's price, stock status (with number), product details (what does it do, manufacturer, etc.), a video promotion, a button to chat with the supplier, and item tags or keywords.

2.1.2 Purchasing Products/ Adding to Cart

When viewing a product, there will be an option to add or remove the product from the user's shopping cart or wishlist. The user can edit the details on products they have added to cart such as the quantity to be bought. A user can proceed to checkout the product/s that have been added to their shopping cart. Users may choose to transact through COD, debit card, or credit card.

2.1.3 Reviewing Products

A user can only review a product if he/she has bought the product. If the user did not buy the product, he/she will only be able to view the reviews and comments made by other users. The user can only post their review

and rate the product once they have received the purchased product.

2.1.4 Search

The user can search a keyword of a product or search for a brand

- BrandName
- Use (Fashion, Beauty, etc)
- Product Name (Lotion, Lipstick)

2.4 Profile

A tab where users can see their profile, followers, users followed and edit some information such as their nickname, password, address, name, and phone number. They can also see their current orders, order history (received and canceled), as well as their wishlist. A user can also add or remove credit/debit card information that can be used for transactions.

2.5.1 Order History

***Simulated Days for Luzon, Visayas, Mindanao and International Shipping**

a. To Receive

This shows a list of the user's orders that have not yet been delivered.

b. Completed

This shows a list of all the completed or finished transactions of the user; delivered and paid orders.

c. Cancelled

The user can only cancel their order if the mode of payment

is COD and the product has not yet been shipped out. If the user used debit/credit card as the mode of payment and decided to cancel their order, and if the payment has already been processed, the website will only refund the user's payment equal to the amount of the ordered product/s that have been canceled in the form of voucher/s or coupon/s sent to their email.

d. Return

A user can opt to return or replace an item and choose the reason on why the user will return or replace the item (damaged item, wrong item delivered, etc.) within three days from when the item was received by the user.
